---

**DuPont™ Tyvek® ThermaWrap™ R5.0**

- Helps prevent air flow through the walls, improving energy efficiency and occupant comfort
- Helps prevent bulk water penetration into the wall assembly
- Provides continuous exterior insulation
- Helps prevent moisture accumulation in the wall cavity, reducing the risk of mold and water damage.
- Contains 20% pre-consumer recycled polyolefin by weight

**DuPont™ Tyvek® Tape**

The crucial, final step for maximum reduction of air infiltration through wall systems is to help create a seamless, protective envelope sealed with Tyvek® Tape.

DuPont™ Tyvek® Weatherization Systems offers a 10-Year Limited Warranty, giving you the assurance that DuPont will stand behind its products. For more information contact 1-800-44-TYVEK

www.weatherization.tyvek.com
DuPont™ Flashing Systems

Innovative flashing systems that work together to keep water out of the homes you build.

The range of DuPont™ flashing products are durable, tough, tear-resistant and deliver superior protection from water damage and perform through extreme temperatures (they can even handle prolonged exposure to UV light).

DuPont™ FlexWrap™, DuPont™ StraightFlash™, DuPont™ Flashing Tape and DuPont™ Thru-Wall Flashing feature quick-release backing allowing for easy installation. And, the forgiving initial tack enables easy repositioning.

DuPont™ Flashing Tape provides a cost-effective way to help protect the jams and heads of today’s residential windows from water intrusion.

Sizes: 4”x75’, 6”x75’ & 9”x75’

DuPont™ StraightFlash™ is dual-sided, self-adhered flashing made with DuPont™ Tyvek® and premium butyl sealant.

Size: 6”x125’

DuPont™ Weatherization Sealant

Seal in Comfort

- Up to 40% of a home’s energy loss is due to air infiltration - exterior air penetrating cracks and crevices.
- Weatherization Sealant is specially formulated to help protect vulnerable wall crevices from the elements.
- Helps increase energy efficiency and comfort in your home.

DuPont™ FlexWrap® NF

DuPont™ FlexWrap® NF (No Fasteners) is a premium performance, extendable self-adhered flashing material that can be applied over a wide range of building substrates.

Sizes: 6”x75’ & 9”x75’

Your project can qualify for a 10-year limited product and labor warranty when you use a DuPont™ Tyvek® Weather Barrier, flashing products and tape.

DuPont™ Weatherization Systems

DuPont™ RoofLiner

Protection from top to bottom

DuPont™ RoofLiner premium roof underlayment provides excellent protection against leaks under all types of roof coverings.

With 10 squares in every roll, DuPont™ RoofLiner allows for maximum roof coverage and efficient installation—making it easier to install than roofing felt. As a result, there are fewer overlaps, seams and fasteners, which helps reduce both labor and waste.

In addition to improved water hold-out and better resistance to mold growth, DuPont™ RoofLiner also offers superior tear and UV-resistance when compared to typical roofing felt.

- Made with DuPont™ Elvaloy® copolymer
- Ideal for sloped (≥2:12) commercial and residential roofs, new construction and re-roofing applications
- Class “A” fire rating per ASTM E108 New
- High UV-resistance with up to 6-months UV exposure per ASTM G154
- Superior tear resistance compared to roofing felt for increased durability
- Lightweight for easy handling and installation
- Better coverage 1 roll replaces about 5 rolls of 30-lb felt
- More resistant to mold growth than roofing felt
- 30-year limited product replacement warranty for builders, general contractors and professional installers.

DuPont™ Tyvek® DrainWrap™

DuPont™ Tyvek® DrainWrap™ was engineered to meet the drainage needs of specific façades. It is recommended for use behind primed wood and fiber cement siding when maximum drainage is desired. DrainWrap™ is also an ideal solution when foam board is applied over flat substrates.

DuPont™ Tyvek® StuccoWrap™

With a specially engineered surface texture designed for traditional and synthetic stucco systems in both commercial and residential construction, Tyvek® StuccoWrap™ helps reduce susceptibility to cracking, improves stucco curing and channels moisture out of the wall.

www.construction.tyvek.com
Introducing an engineered slate product that replicates the beauty of natural slate in durable, easy-to-install shingles.

A roof plays a big part in the visual appeal of your home. It makes up about a third of the exterior—so the color, shape and texture should be compatible with your home’s style. Our engineered slate roofing offers the beauty and durability of quarried slate but it’s easier to install and costs substantially less. It can enhance the appeal and value of your home for decades to come.

Slate has adorned some of the most prestigious homes and buildings in the world. The product offers a richness and depth that an ordinary shingle simply cannot match.

Nature creates slate in a variety of colors and so do we. From charcoal grays and lustrous blacks to silver shades and earth tones. Each color is formulated with real slate to produce the most authentic hues. Available in bundles of blended colors, our pre-selected color schemes work together to create a more attractive, artistic look.

Ply Gem engineered slate shingles are made of nearly 100% recycled materials, they’re much lighter than natural slate so less fuel is used in shipping and handling.

Choose your blend to suit your taste.

**SAGEBRUSH**
Color BLEND
Shades of gray mixed with deep green hues.

**BROWNSTONE**
Color BLEND
A subtle mix of earth tone colors.

**PEWTER**
Color BLEND
Displays a rich gray in light and dark shades.

**CHARCOAL**
Color BLEND
Warm gray paired with silver and charcoal tones.

Builders, remodelers and homeowners have put their trust in us for over 70 years. Experience the Ply Gem difference. Build peace of mind with us.

www.plygem.com
Innovative Trim and Siding for the way you build

LP® SmartSide® Trim and Lap Siding products are made from engineered wood for exceptional durability and beauty. They are strong yet light-weight and come in 16’ lengths to help speed up installation and reduce the number of seams on your home by up to 33%. Much like natural wood, LP SmartSide products help you add craftsmanship and warm appeal to any style of home.

Built to Stand Up to Nature

- Applied in a controlled environment meeting factory specific standards
- Extreme durability provides protection against moisture from snow and ice

LP SmartSide® Color Solutions

- Almond
- Cream
- Mist Grey
- Walnut
- Blue
- Harbor Grey

Crown Column & Millwork manufactures architectural columns, various styles of fiberglass round and square columns, softwood and hardwood columns, mantle columns, decorative capitals, composite and wood porch posts, softwood stair parts and composite and vinyl rail systems. Combining centuries old principles and modern technology, our master craftsman and trained technicians create exquisite products and are among the industries most skilled and experienced artisans.

Crown offers an infinite selection of styles and sizes, giving you the power to create that which you can imagine. So whether your project is a restoration based on classical principles, a new construction of contemporary design or your own unique expression, Crown can help you make a timeless statement.

Why Crown Column? It’s simple really.

• Our attention to detail and devotion to the classical orders are absolute.
• Our standards are exacting.
• We closely control the quality and preciseness of entasis, projections and profiles as our master craftsmen make each architectural column to your custom specifications.
• We go beyond customer service to personal service.
• We get to know our customers and their needs.

Crown Column offers an infinite selection of styles and sizes

• Architectural columns
• Fiberglass round & square columns
• Softwood & hardwood columns
• Mantle columns
• Decorative capitols
• Composite & wood porch posts

We produce columns to meet your needs, regardless of the shape, size, design or species of wood that you require.
Why choose Novik?

Novik® is committed to offering products at the cutting edge of technology that faithfully reproduce traditional materials, offering an option that is both attractive and economical. Our top priority is to satisfy our invaluable customers.

Your home is one of your most precious assets. It is both an investment and a source of pride. Its external appearance is the first and most important impression it will make, so it is crucial that you choose a product that can match your aspirations. If you dream of finishing your house in brick, stone or cedar, and your roof in clay or slate tile, Novik’s polymer siding and roofing systems offer a unique and affordable solution.

Products created from innovative polymers represent a smart, attractive alternative to traditional products like wood, brick or stone. Our state-of-the-art processes enable us to achieve striking results that outperform the other products on the market.
Challenging the Perception of Fiber Cement™

Brick, stone, block, shake and smooth lap siding, all of these exterior façade options are timeless in their appeal. With Nichiha fiber cement panels, that appeal is brilliantly represented in over thirty textures and colors, along with shake and lap siding styles.

A truly unique element of the Nichiha fiber cement panel line is the clip installation system. The patented Nichiha clip system saves labor time and costs, as no special tools or specific labor are needed to complete installation.

• Multi-layered coating process creates a lasting finish
• Panels will not crack, rot or delaminate and are resistant to fungus and termite infestation
• Nichiha fiber cement panel products withstand extreme weather conditions

Packaged: 2 per pack (18 sq.ft.)

Brick Panels - Nichiha brick panels express the splendor and appeal of traditional brick in three styles.

All the things you love about brick. Nichiha’s brick panel products offer the look and timeless appeal of traditional brickwork. The slight variations in color, the stately good looks, even the grout lines; it’s all there. And thanks to a proprietary multi-layered coating process the beauty of Nichiha is guaranteed to last.

Canyon Brick™ - feature attractive earth tone colors

Vintage Brick™ - feature the warmth and charm of age-worn brick

Plymouth Brick™

www.nichiha.com
Stone Panels
Nichiha stone panels feature subtle hues of stone and earth, combined with natural textures.

SandStone™ II
feature attractive earth tone bricks with subtle sandstone texture

- Autumn Brown
- Desert Beige
- Gentle Gray

StackedStone & LedgeStone KuraStone™
beautiful mortared dry-stacked stone appearance. The bold random stone placement captures brilliant shadow and light creating a striking curb appeal

- Desert
- Mountain

FieldStone™
time worn edges combined with speckled flecks of stone

- Bronze Mist
- Pepper Sand

QuarryStone™
the appeal and splendor of granite and marble

- Desert Slate
- Gray Mist
- Speckled Brown

Block Panels
Nichiha block panels are defined by bold dramatic colors & textures.

ArchitecturalBlock™
& ArchitecturalBlock™ - Large
feature a pebbled orange peel surface

- Gray
- Mocha
- Tuscan

EmpireBlock™
each panel is shiplapped on its two long edges for a tight fit.

- Vertical
- Horizontal

Illumination Series - Color Xpressions
With Color Xpressions, Nichiha will match any paint manufacturer’s standard colors in satin finish. To satisfy the increasing demand of custom color options, Color Xpressions replaces Nichiha’s current five stock colors for the Illumination Panel Series.

VintageWood™
series provides the charm of vintage cedar with the durability of fiber cement. Designed to replicate timber plank siding, these panels are perfect to achieve a rustic finish without the maintenance of wood. VintageWood™ offers the design flexibility to be installed both horizontally and vertically.
AZEK® Trim with the AZEK® Edge has precise sealed edges on all 4 sides.

AZEK® Trim products, available in trim, sheets, cornerboards, and beadboard, offer many reasons to choose AZEK® Trim for your next project. Using traditional tools and fasteners, AZEK® Trim products can be worked just like wood - even mitered, routed, and turned on a lathe. For custom applications, AZEK® Trim products can be laminated and even heat formed to create curves.

- Impervious to moisture and insects
- Perfect for ground contact application
- 25 year warranty
- Tightest board tolerance in the industry
- Easier to clean
- Maintains a “like new” appearance in all types of weather
- Does not require paint for protection
- Building Code listing ESR-1074

**AZEK® Finish Grade Trim**

- Two piece trim system designed to offer a smooth, fastener free trim surface.
- No more need to fill, paint and sand nail holes.
- Perfect for door and window surrounds, but could be used in nearly any trim application.

**AZEK® Column Wrap**

- Easily create custom looks without additional labor and costs
- Low-maintenance & easy to install
- Available in white matte
- Doesn’t require additional milling or painting
- Available sizes: 4x4, 6x6 and 8x8 to fit around posts and is available in 10ft. lengths.

**AZEK® Universal Skirt Board**

- Trim product designed to be used along the base of the house.
- Integrated nailing flange and drip edge are intended to assist in water management efforts.

Learn more at www.azek.com
AZEK® Mouldings are the best looking, highest performing wood replacement line of mouldings available in the market. They won’t rot, crack or split and are impervious to moisture and insects. Developed with breakthrough technology, AZEK® Mouldings have the same look and feel of AZEK® Trim. Available in the most popular profiles, AZEK® Mouldings feature the same crisp detail found in wood mouldings with the longevity and durability that AZEK® products are known for.

AZEK® Mouldings can be installed using traditional tools and fasteners. For custom applications, AZEK® Moulding products can be laminated and heat formed to create curved moulding details.

- Impervious to moisture and insects
- Perfect for ground contact application
- 25 year warranty, One warranty covers all products
- Maintains a “like new” appearance in all types of weather
- Does not require paint for protection, yet easy to paint if a custom color is desired
- UV protection inside and out

Market demand is moving from wood and composites to a new category of ultra low maintenance decking – AZEK® Deck. With over 25 years experience in cellular PVC manufacturing, AZEK® Deck is no stranger to better performance. Manufactured in the USA, AZEK® has invested years of technical expertise to develop decking that is designed to last beautifully.

- Stain resistant
- Scratch resistant
- Split resistant
- Mold and mildew resistant
- Durable and long lasting
- Impervious to moisture and insects
- Limited lifetime warranty
- Building Code listings
  - ESR-1667 & CCRR-0101

AZEK® Deck is available in a variety of colors and grains to suit every taste and complement every exterior. Simply choose the AZEK® Deck color that works with your home to create your unique outdoor environment. Then sit back and enjoy.

**Fastening Options:** (See pages 27 & 28)
- Cortex™, ProClip® from Tiger Claw®, HEADCOTE®, HIDfast and TrimTop™
XLM Collection

It's all about performance.

XLM Tropical

These appealing hues bring out the exotic beauty in all of our surroundings - from grass to gardens, woods to water. Choose from the aesthetic of Harvest Bronze all the way to the striking, deep tones of Walnut Grove.

XLM Natural

Pure, earthy and subdued decking colors that blend with your environment - giving you freedom to design and complement your space with a broad range of primary colors and tones.

Premium PVC Decking

So this is what stress-free feels like. XLM® decking is engineered from premium PVC – so you’re guaranteed the ultimate in scratch, mildew and stain resistance. Our Flat Grain surface pattern comes in two stylish color collections, each with a 25-year limited warranty. That means you can feel good about its look through years of high traffic and hard weather. So, put your feet up or let your hair down? The choice is yours.

- No pre-drilling required
- No visible screws when installed with CONCEALoc® hidden fasteners
- Spans a maximum 16” on-center
- Available in Grooved 12', 16' and 20' lengths
- Available in Solid 20' lengths
- Grooved or Solid profile

Sit back and enjoy the lasting beauty of an AZEK Porch.

Make a lasting good impression.

Seeing a traditional porch often brings back memories of a simpler time. A warm breeze, a front swing, and a cold glass of lemonade. With today’s architectural trends, that traditional front porch is making a comeback, but without all the work.

AZEK® Porch, in five popular shades, gives the upscale look of a traditional porch, but resists everyday stains and scratches. Built to handle the high traffic that any porch encounters, with AZEK® Porch you’ll make a great first impression...that lasts long beyond the first day.

- Low maintenance
- Stain and scratch resistant
- Perfect for covered or uncovered applications
- Limited lifetime warranty

AZEK® Porch is a tongue and groove 1 x 4 plank that cuts and installs easily with traditional tools.

**Sizes:** 1” x 3 1/8” wide

Fastening Options: (See pages 27 & 28)
HEADCOTE®, HIDFast 2.75 TG

Actual colors may vary slightly from photographs. Depending on environmental conditions, AZEK® Porch colors may appear to lighten over time as part of the natural weathering process.

www.azek.com
Strength and good looks are just the beginning.

AZEK® Rail offers the beauty and feel of real wood coupled with the high durability and low maintenance you expect from AZEK® products. With three versatile styles and popular color selections, it is now easier than ever to find the perfect railing system to complement your deck or porch project.

- **AZEK® Premier Rail** is a classic Victorian style railing available in five popular colors to complement all housing styles and deck colors.
- **AZEK® Trademark Rail**, a versatile Colonial style works well with any housing style.
- **AZEK® Reserve Rail** is a generously sized railing offering a luxurious look and feel.

Clean lines. Classic proportions. Luxurious feel. All the qualities a superior railing should have.

Turn on your decking with AZEK® Lighting

Once you’ve chosen your perfect AZEK Rail, enhance it with a variety of new AZEK lighting options. With AZEK Lighting, spending time on the deck can last all night. These LED lights lends a sense of added safety by illuminating steps and installs easily with AZEK Railing systems.

- 6 Lighting Options
- LED Lighting
- Warm white color
- UL Listing
- Low voltage
- Complement existing AZEK post caps
- Components have 5-year limited warranty

Accent Light  Lighted Island Cap  Post Cap Light  Under Rail Light

AZEK® Premier Rail (Available in all 5 colors below)

AZEK® Reserve Railing (Available in white)

AZEK® Trademark Railing (Available in white)

www.azek.com
AZEK® 10' Rail

The new AZEK 10’ Rail offers total savings over 14% on just 30’ of railing!

- Savings of over 7% on material costs
- Labor savings of over 7% due to fewer post attachments which require less joists/framing to install structural posts
- Improved aesthetics with clean looks and fewer posts
- A style that will match historical wood rail applications
- Available in Premier and Trademark in Black or White, Reserve in White

AZEK® Metal Balusters

AZEK Rail Metal Balusters in ¼” round and ¾” square styles. Both styles integrate with AZEK® Railings and use the same baluster screws as AZEK® composite balusters.

Lengths:
- Rail balusters: 29”, 31” 35” & 37”
- Stair balusters: 31” & 37”

Shown: AZEK® Round Metal Balusters in Black with Kona®

AZEK® ADA Rail System

ADA Product Advantages
- 13 Components
- Available in White and Black
- 1 1/2” dimension vinyl meets the “American with Disabilities Act” (ADA)
- Installs easily.
- Fasteners are hidden
- Can be installed in any stair or ramp configuration; continuously or interrupted.

AZEK® 5 ½ x 5 ½ Post Sleeve

Re-engineered to offer a better fit and finish over a traditional 4” post, the new AZEK® Post Sleeve has been enlarged to match architectural aesthetic trends. The enhanced 5½” x 5½” post sleeve works with all AZEK® Rail brackets.

Sizes: 39”, 54” & 120” (All colors)

Check with your local Parksite representative for information on improvements to the rail installation process.
Why TimberTech?

*We get it.* It’s why we’re a leading innovator in composite decking – and have been for years. The ultimate in low-maintenance living – with a 25-year warranty that proves our dedication to perfection.

High-performance decking. Low-maintenance living. It’s our passion.

- Pool Areas
- Low Volume Roadways

Paver Size: 4” x 8” | Grid Size: 16” x 16” | Total Height: 2.38”

Made of 95% Recycled Material
Helps projects earn LEED® certification easier than any other pavement.

4” x 8” Composite Permeable Pavers

Combined with an open-graded base, Permeable AZEK® VAST Composite Permeable Pavers help reduce the rate and quantity of runoff in typical applications.
- Less energy-intensive and less costly to transport
- Easier to work with on job sites
- Great for use in flat and green roof applications

www.azek.com
**4"x 8" Composite Resurfacing Pavers**

**Transform the Ordinary into the Extraordinary.**
AZEK® VAST® Resurfacing Pavers can revitalize your home by transforming an old concrete patio, walkway or wood deck into a low-maintenance, durable and premium aesthetic.

**Simply a Better Paver**
AZEK® VAST® Composite Pavers are breaking the traditional mentality that landscape pavers must be made from concrete or clay. Made from up to 95% recycled materials, patented VAST Composite Pavers are the most technologically advanced and socially responsible paver alternatives in the industry.

**Ideal Applications:**

Step into the natural beauty of...

A Malaysian Hardwood, mahogany provides a durable and strong deck or porch that adds the perfect amount of warm, rich color to your home. Our mahogany is sourced from countries that are leaders in ecological, sustained forestry practices and no harmful chemicals are needed to treat our boards. Mahogany is a kiln-dried hardwood that requires specific installation practices; please consult installation guidelines before any porch or decking project.

Fastening Options: (See pages 27 & 28)
Tiger Claw® TC-4 or TC-G and Starborn® Smartbit #8 with HEADCOTE® Mahogany colored screws

Mahogany offers a long lasting beauty without uneven wear or splitting. Mahogany also provides a durable and strong deck that adds the perfect amount of warm, rich color to your home. Mahogany is sourced from countries that are leaders in ecological, sustained forestry practices.

• Coated on all 6 sides
  - Reduces checking and splitting
  - Protects against the sun’s damaging rays

• Manageable small yard packs

• Available ⅜” x 6’

• Even lengths 6’-16’

• Coated with Superdeck® Exotic Hardwood Stain - #2503-Cherry

• Long lasting color and UV protection

• Durable and decay resistant

The Natural Durability of Mahogany with the UV Protection of Superdeck brand products.

NOTE: Not available in all markets.
## Ipé Decking

by Parksie

### Setting the Standard in Maintenance

Free Decking

- **Beauty and Luxury:** natural color is rich and luxurious with a consistent graining that is knot free.
- **Durability and Longevity:** three times more dense than oak.
- **25-Year Warranty:** chemicals are not needed to maintain an impenetrable surface against wood decay and insects.

### Ipé Decking Features & Benefits

An Ipé deck will be one of the strongest structures on your property. Its strength can be attributed to the natural oils and highly concentrated density levels contained in the wood. This combination is what will make your Ipé wood deck stand the test of time. Your new Ipé deck will be able to:

- Provide extreme insect resistance
- Stay cool because it doesn’t absorb heat
- Repel wood rot & decay
- Hold up under extreme traffic & heavy use
- Resist mold & fungus
- Outlast composite materials
- Resist scratches & slivers
- Have increased slip resistance

With access to our wholly owned and operated U.S. lumber mills, you can customize your order of Ipé wood decking to your specifications. Don’t forget, you can also get Ipé decking lengths up to 20 feet!

### There are three common Ipé decking profiles:

- Regular E4E S4S
- Pre-Grooved
- Tongue & Groove

### Profiles

Aluminum Railing System

Deckorators® Aluminum Railing, available in black and white, has a durable, powder-coated finish to help your outdoor oasis weather the elements. The aluminum railing system, designed to work with every Deckorators baluster style, offers robust profiles, an eye-catching appearance, comes in 36” and 42” rail heights and features a lifetime limited warranty.

Note: Scenic Baluster can work with the Aluminum Rail System

Balusters

Enjoy the freedom to select from a wide range of aluminum balusters for your railing that are low-maintenance, come in a variety of colors and can be accessorized to create truly distinctive and beautiful deck or porch railings. Deckorators® balusters offer the options you desire.

Choose from a wide range of balusters within the aluminum series: Classic, Colonial, Architectural, Estate, Traditional—or clear your view using glass railings with Scenic Glass Balusters.

Lighting

Light up your deck, day or night without the hassles of wiring or electricity.

Solar Post and Stair Lights

Convertible Post Cap Lights

Designer Solar Metal Post Caps

Solar Glass Post Caps

Solar Metal Post Caps

Recessed Lighting Kit Add-Ons

Deckorators recessed, low-voltage lighting kit provides a brilliant glow for walkways or steps, or wherever better visibility is desired.
Decorative post caps are one of the first things people notice about an outdoor deck or patio.

It’s easier than ever to design a custom deck using Maine Ornamental’s eye-catching array of innovative deck accessories. The post caps are designed to fit nominal post sizes and will beautify your outdoor project for years to come.

**Cast Stone Postcovers**

Our new and improved postcovers are now made of glass fiber reinforced concrete, and hand painted for a realistic appearance.

- Each postcover measures 8” x 8” x 42” or 53” height
- Fits over a nominal 4x4 or 6x6 wood post
- Available in Gray Cobblestone, Gray Fieldstone and Beige Stacked Stone

**Cast Stone Post Caps**

New Cast Stone Post Caps add the finishing touch to the Cast Postcover.

- Available in three styles which can be mixed & matched to complete your own personal look

**Glass Post Caps**

Offered in Jewel and Tiffany-style glass.

Jewel post caps are available in vibrant shades of emerald, sapphire and garnet, adding that extra touch of style.

Tiffany-style post caps are offered in four distinctive styles: California Grape, Sunflower, Mission and Seagrass Serpentine Jade.

Lighten up your outdoor space day and night with the Solar glass post caps—also available in three Tiffany-styles.

*Handcrafted with exacting standards and excellence.*

**Primed Wood Post Caps**

Deckorators® post caps by Maine Ornamental® has added yet another product to its selection of outdoor accessories: primed wood post caps. These caps top your post with the clean simplicity of white.

**Post Cap Finials**

Post top finials are designed to screw onto post tops. The pineapple finial comes with an attached lag screw and is designed for a 4 x 4 post.

**Decorative Planter Post Caps**

Planter post caps, made of cast stone, are the perfect way to bring the charm of a garden to any deck or fence project. These unique planter caps feature a drain hole to keep plants thriving longer.

Finally a Better Way to Build a Deck!

Tiger Claw® is a stainless steel fastener with black oxide coating with stainless steel screws.
- Fastener available for all types of decking
- Saves installation time
- Reduces splitting, cupping and rotting
- Install from top side
- Preserves beauty of decking
- Requires no special tools
- Cost effective - one of the least expensive hidden deck fasteners

www.deckfastener.com

PRO PLUG® SYSTEM FOR PVC

The Pro Plug® System for PVC is a superior and easy to install plug system for PVC Decking. The system consists of two components:

PRO PLUG® PVC TOOL: Drives fasteners to the correct depth every time in deck and trim applications.

PRO PLUG® PVC DECK: Plugs are made from actual PVC decking material, so they will match perfectly. Fasteners are available in both 305 Stainless Steel and Epoxy Coated Carbon Steel. Stainless Steel fasteners provide superior corrosion resistance, are ACQ approved, and feature a star drive recess.

Changing the Face of Decking™

THE CAMO™ HIDDEN DECK FASTENING SYSTEM works on any treated lumber, hardwood, cedar, composite or PVC deckboard. CAMO™ deck screws and a CAMO™ Marksman tool combine to deliver a fastener-free deck surface at a price that makes getting the job easy and installing the deck even easier.

Fasteners

TC-1* for Pressure-treated, Cedar & Redwood
TC-2* for Pressure-treated, Cedar & Redwood
TC-3* for Composite or Medium Density Hardwoods
TC-4* for Stainless Steel Hidden Deck Fastener
TC-G for Grooved Decking
PROCLIP® for Cellular PVC Decking

for virtually all decking types:

Square Edge
Single or Double Groove
Double Groove Only

Patented, Collated, Stainless Steel, Hidden Fastener Decking System

- Easiest
- Fastest
- Invisible
- Strong
- Won't Rust

It's easy as:

100 square feet = 10 Minutes

www.hid-fast.com
The FastenMaster® Cortex™ Fastening System is the fastest, easiest way to conceal the heads of your deck screws on specific composite deck types. Available for use with market leading composite and PVC deck boards.

The FastenMaster® TruSnap™ is a stainless steel trim screw engineered for use in a cellular PVC decking like AZEK®, Deck and cedar, ipé and mahogany decking. Color matched for AZEK® Deck.

No Pre-drilling. They ZIP right in! Engineered for multi-ply LVL, LSL and PSL applications.

Faster, Easier, Stronger than 1/2” lags.

• The first fastener engineered to attach deck ledger boards to a wooden house structure with no pre-drilling.
• Built-in washer head design eliminates the need for additional washer

The speed of a LOK fastener. The strength of a through-bolted connection.

Spider Drive™ offers highest level of bit engagement and drivability.
Real Hardwood. Real Beauty. Real Value.

Abaco™ tropical hardwood decking features a contemporary European design with a traditional smooth finish on one face and an elegant moulded surface on the other.

The moulded surface makes each board slip-resistant and cooler on the feet. Abaco is available in grooved and traditional boards.

Features:

- Tropical hardwood properties comparable to Ipé
- Reliable supply from select pre approved mills
- Kiln-dried in random length tallies
- Grooved for hidden fasteners or traditional S4S
- Pre-cut, pre-sealed stair treads
- Two-sided surface: smooth and European moulded
- Matching railing kits

Characteristics:

- Fine-textured, straight, tight-grained
- Very hard, strong, durable
- Termite and rot-resistant
- Long lasting natural product

Available Sizes:

Abaco is available in both 3/4” and 1” thick boards in widths of 3-1/2” and 5-1/2”, in random lengths.

Pre-cut, end sealed stair treads are also available in 4’, 5’, and 6’ lengths.
