

PRODUCT OFFERING

Corian.

SOLID SURFACE

DuPont created the solid surface category more than 30 years ago. An advanced blend of natural materials and pure acrylic polymer, **Corian®** is a brand that has earned trust and respect as a proven material that brings design versatility, long-term performance and value to any environment.

Zodiaq.

QUARTZ SURFACE

Zodiaq® is composed of 93% quartz and 7% DuPont proprietary technology giving it exceptional toughness and a hardness of 7 on a scale of 10 (only diamonds rate a 10). Zodiaq® offers consistent color, is dense and nonporous, with no sealing required. It has excellent strength and durability, and is heat-, scratch- and stain-resistant.

STONETECH™
PROFESSIONAL

DuPont™ StoneTech® Professional stone, tile and masonry care products are innovative, easy-to-use solutions to protect and preserve stone against the damaging effects of everyday living. With a complete line of products to protect, clean and transform stone surfaces, we help ensure the beauty of natural stone and tile countertops, floors, walls and other installations for generations to come.

BLANCO

For more than 75 years, **BLANCO** has been a world leader in quality, innovative design and unsurpassed attention to detail. The company pioneered the use of stainless steel for kitchen sinks and was the first company to introduce hard composite materials such as Silgranit. Today, BLANCO has the most extensive line of premium quality kitchen sinks offered in North America.

particleboard

Our **particleboard** stands out from the competition, thanks to its specially bonded, top-quality wood fibers, its smooth surface and exceptional machining ease, making it the ideal choice for commercial and residential applications.
