

INSPIRING HEALTHY SPACES

CORIAN® SOLID SURFACE

Features & Benefits

DURABLE AND TOUGH

Corian® keeps its good looks and survives the impact nicks and cuts that can occur with daily wear and tear.

EASY-TO-CLEAN

Corian® has a non-porous surface that prevents dirt and stains from penetrating the material. Marks and stains stay on the surface and can easily be removed with a Scotchbrite® pad and household cleaner.

NONPOROUS

Corian® is nonporous and hygienic. Its smooth surface does not allow liquids to penetrate and that makes it easy to clean. Bacteria and mold have nowhere to take root. When Corian® looks clean, it really is clean.

SEAMLESS

Color coordinated joint adhesives bond Corian® solid surfaces with inconspicuous seams. This seamless look of integrated Corian® countertops, sinks, and covered backsplashes also means there are no crevices to trap dirt and bacteria.

SEAMLESS DETAIL

WHEN WE SAY SEAMLESS, WE MEAN SEAMLESS

When properly fabricated and assembled with Corian® Joint Adhesive, Corian surfaces are totally integrated into a single piece. Lines and cracks from deck seams, edge seams, covered backsplashes and integrated sinks all disappear leaving no places for dirt, mold, mildew or bacteria to take hold.

Integrated sinks and lavatories

Coved backsplash

No deck, edge, or miter seams

Deep Nocturne (Pods)
Mahogany Nuwood (Tabletop)

Trust your environment's surfaces to the same material the finest hospitals trust.

When it comes to surfaces the healthcare industry can rely on, they consistently look to Corian® Solid Surface. That's right, the very Corian® surfaces that have been around for over 50 years, are trusted by healthcare experts all over the world for their hygienic properties. Because Corian® is non-porous and can be fabricated without seams, there is nowhere for viruses, bacteria, mold and mildew to take hold. Today's climate calls for vigilant disinfection and cleaning of surfaces and when a space is used by many and sees numerous visitors, selecting material that does not harbor trouble is paramount. Corian® Solid Surface is that material.
