

BELTERRA DELIVERS ANOTHER LEVEL OF REAL STONE AESTHETIC

Silvermine® Belterra Panel in Monument Valley

REAL STONE AESTHETIC

EASY TO INSTALL

PROTECTS FROM WATER DAMAGE

FLATS

IN STOCK

Beltterra by Silvermine® offers a real stone appearance that complements and integrates seamlessly with multiple materials and home styles, creating balance and flow while providing patented water protection for your property.

- Realistic ledgerstone look with sharp details and superior colors.
- Over 50 unique ledgerstone panels for each color prevents the “repeat look”
- Integrated patented flashing system protects your home from water damage and requires less wall preparation than other mortarless and mortared products
- One of the lowest total cost solutions (material and labor) for almost every project

Evening Gray

Dakota Sunset

Monument Valley

INTEGRATED FLASHING SYSTEM

Silvermine’s Patented Flashing and Fastening System is the only stone designed to keep water away from the wall. Other stone products are designed to bring the water behind the stone and drain between the stone and a water barrier.
